

**VRUEC Winter Meeting
January 30, 2006
Longwood University**

Suzie Gilley called the meeting to order at 10:25 a.m. Suzie thanked Katie Register for hosting the meeting and introductions were made. A motion was made to accept the minutes from our May 2005 meeting with one correction to the list of attendees.

Attendees

Pat Paul	Nancy Drumheller	Katie Register
Dastina Johnson	Suzie Gilley	Virginia Witmer
Carol Zokaite	Ann Regn	Denny Casey
Marilyn Elder	Tim Taglauer	Barry Fox
Eric Rhoades	Bill Portlock	Ellen Powell
Paula Klonowski	Jennifer Underwood	Sonya Wolen
Anne Wright	Anne Mallek	Jill Bieri
Dee Deroche	Llyn Sharp	
Lane Guilliams	Jeff Kirwan	

Treasurer's Report

Ann presented a spreadsheet with income and expenses. DCR classroom grants, Virginia Naturally, and Smithfield foods all contributed to this year's income (DCR - \$50,000 for mini-grants, Virginia Naturally - \$15,000). Love a Tree expenses were \$14,061.30, and the Bay Academy expenses are covered by grants to VRUEC. The Treasurer's Report was accepted.

Year in Review: Updates/Reports

VaN Classroom Grants:

- 27 applications for the current round.
- \$237,000 given out over the years (Rounds 1-7)
- Clarification: Divisions outside the watershed can be funded if money is available since there are three funding sources. Some of the money can only support projects inside the Bay watershed. A map and handouts were provided identifying the schools receiving funding.
- Marketing to DOE Region 8 was discussed since there seems to be a gap for grants from this area. US mail was suggested.

Virginia Water Monitoring Council – contact Katie Register for more information

Virginia Naturally Update – (annual report is cream colored handout)

- 128 groups joined VaN last year.
- Contact Nancy if you are not getting electronic newsletter or if you want something in the newsletter.
- Website has been redesigned.
- VaN presented, exhibited at over 30 events.

- 107 educators attended EE Conference. Next conference is Sept. 19-20.
- Several regional EE groups are beginning to meet.

There was clarification of the role of VaN and VRUEC.

Eric suggested that it be a requirement for classroom grant awardees to register with Stewardship Virginia.

DEQ has applied to EPA for a grant to set up the regional EE groups. They don't know if the grant has been awarded yet.

Virginia Naturally Schools –

- 29 schools last year (six involved since 2000)
- Receive pennant each year
- Supported by DGIF and Smithfield Foods

Calendar of Summer Activities (white sheet)

Due by Feb. 15 to Jennifer Underwood for this summer's activities. Please also notify Nancy.

Chesapeake Bay Academies

- Coastal – 25 teachers last year, 12 for credit
- June 19-23, 2006 this summer
- Positive feedback from previous academies
- Eric suggested a follow-up survey to participants to see if they have implemented projects.
- Western – 23 teachers, good feedback from teachers, 4 days.
- Barry had questions regarding implementation plan for Bay Academy teachers to share information with their localities – present to school board, county planning board. Sharing of information should be considered as a priority.
- Project Underground and Healthy Water, Healthy People included in academies
- Graduate credit available through VCU Life Science Dept. (optional)
- Lane, Bill and Carol Z are coordinating.

Sixth Grade Science Institutes

- NOAA grant
- SW handout
- 4 dates this year

Agency Updates

Danville Science Center – yellow handout, working with institute for grants learning and research.

VMNH – VSSI will be held July 17-21 at Hungry Mother State Park. GLOBE will be at IALR on June 30. The Earth Science Institute is July 26-27. They've produced a new moth book and VMNH is involved in the Master Naturalist Program.

Chesapeake Bay Foundation is at capacity for this spring. They will offer eight five-day courses for teacher professional development. Expedition Chesapeake took 30 days last summer. This year they will travel the Susquehanna.

DCR – Stewardship Virginia is April 1 – May 31. You can register activities on the website. This is the 70th anniversary of Virginia's State Parks. They are producing John Smith maps that highlight his trail on the James River. It is a boat and auto tour with 40 stops.

VT Extension - The Virginia Master Naturalist Program is voting on a logo. This program will develop a statewide network of volunteers across the state similar to the Master Gardener program. To start a chapter you need a coordinator from a state agency. There will be a 3-day training on May 3-5 at Douthat State Park. Information is being communicated through agencies first and then statewide. Michelle Prysby (mprysby@vt.edu) is the new program coordinator.

Natural Resources Conservation Service (handout) provided a grant to Henricopolis SWCD for a soil tunnel.

Virginia Association of Soil and Water Conservation Districts (handout) – The state envirothon competition is May 14-15. The March training session will focus on global warming.

Virginia Tech Science, Technology, and Math Coalition – STEM.vt.edu, new organization

Virginia Coastal Zone Management –

- New logo
- Oyster gardening guide revised
- Currently undergoing needs assessment and developing strategies
- Focus on living shorelines
- Planning summit on living shorelines for late summer/fall
- Contractor training
- New kayak/canoe trail and brochure for Eastern Shore and seaside of Virginia

4-H

- Envirothon and wildlife education program
- Water wizard van (handout)
- What Do You Know About Water Quality (handout)
 - Powerpoint presentation
 - Looking for folks to pilot program
- Master gardeners and watershed

- Marine camp is revised
- Planning guide for field study is revised
- Citizen/soldier operation: 50 15-lb. boxes shipped

Clean Virginia Waterways – Katie Register

- 12th annual International Coastal Cleanup Sept. and Oct. 9/16/07
- Rain barrel workshops

Longwood University Foundation

- Hull Springs Farm – 637 acres in Westmoreland Co.
- Multi-use facility, forest management, living shoreline, wetlands restoration
- Sleeps 36 people

Virginia Department of Education

- PAEMST- K-6 teachers
- GIS statewide site license for all middle and high schools in Virginia with training (8 regional academies this summer)
- Learn and Serve Virginia program will have environmental focus for the next three years. \$358,270 to support service-learning.
- MWEE tracking survey
- BWET grant

Virginia Commonwealth University

- 7 teacher workshops this summer: Forensics; Woods, Water and Wildlife; Botany, vertebrates, entomology
- The Rice Center has a pier on the James River
- Virginia Naturalist Society has started up in the Richmond area. Meetings are the third Tuesday of the month at the Science Museum of Virginia.

Department of Historic Resources

- Partnership with VMNH to develop website on three cultures (Pueblo, Eastern Woodland, ...)
- Republishing First People book
- Environment Virginia @ VMI 4-18-4/20 for businesses, NGO's, agencies. High school pilot program is new this year.
- Biodiversity, Chesapeake Bay, air quality, green architecture
- Environmentva.org
- Virginia Archeology month

Department of Conservation and Recreation

- Cave owners newsletter (handout)
- Karst education 3/1 and 3/2 facilitator training
- May – bat education
- New Project Underground book by early summer – two activities on microbiology, topo and hydro lessons
- Pre-service training with WET, WILD, PLT and Underground

Department of Forestry

- New conservation education coordinator
- State Forest education
- Holiday Lake Forestry Camp June 19-23 with teacher component
- Master Naturalist program partner
- New Rain Garden publication
- VMI Environment Virginia – high school students focusing on environmental issues (Wed 4/19) – need facilitators for session. See Ellen if interested in being a facilitator.

Shenandoah National Park (handout)

- Debut of new web-based curriculum “Good Character, Good Stewards.”
- Flyers available
- Park Service grant to add two more Earth Science lessons on source water, GIS (hydrology and geologic history of Shenandoah National Park)

NOAA Chesapeake Bay Office

- Money handout – 2.5 million dollars for FY 05
- About half of this year’s BWET proposals were for exemplary projects (professional development and MWEE)

Department of Environmental Quality

- SHENAIR professional development June 26-30 at JMU

Department of Game and Inland Fisheries

- Birding and wildlife trail guides
- Animal Tracks in Virginia Wildlife magazine
- **Wild about Math** book

New Business

VRUEC Budget Request: Requested funds did not make the Governor’s budget. Chesapeake Bay 2005 Status Report (handout). State government budget priorities were complementary to Bay education priority areas.

1. Enhancement of 50 outdoor classrooms in priority areas (grant funding available). VRUEC support letter for Virginia Outdoors Plan – adding environmental education to this. Increase in access to current sites as well.
2. Ensuring that environmental education has an “in” in science methods classes, strengthening programs.
3. Provide additional opportunities for formal and informal groups to participate in long term EE planning
4. Expanding educational training programs “Conservation Education.”

MWEE mini-grant program (see handout)

- Support efforts by community groups to provide student groups with MWEEs. Helping to build capacity.
- Discussion about targeting school population
- Who can apply for money
- Similar to classroom grant application
- Money being granted - \$1-3K per grant (\$30,000 NOAA grant program)
- Should there be an articulated match
- Discussion regarding wording of RFP
- Committee to review grants: Paula, Eric, Barry, Llyn, Ann, Dana

Love a Tree – Possible topic for fall (DCR & DHR) connect historical and current use of natural resources and trends (oysters, chestnuts, tobacco, etc.)

VRUEC next meeting dates – May 22, 23, or 24

Environmental Educator of the Year Award will be presented to Joyce Buchanan to recognize her lifetime achievement in September. Barry made a motion that Joyce's nomination be approved, Llyn seconded and the motion carried.

Spring Professional Development MWEE Workshop for non-formal providers

- 2 days in a natural setting
- Hands-on in the field
- Email target audience
- Email Suzie if interested

Helping to plan EE Committee: Eric, Paula, Carol Z., Barry. Committee will report on what is wanted at sessions.

VAST Conference

- VRUEC funding – specific job for \$\$\$. Any suggestions?
- Address SOL needs of teachers
- Keynote ideas?
- Something tangible to take into classroom
- Is there a watershed trunk?

Other Business:

The following new members were voted in:

Katie Register
Jill Bieri
Dee Deroche
Ann Mallek

Respectfully submitted by Lisa Deaton & Paula Klonowski

Attendees

Pat Paul	Nancy Drumheller	Katie Register
Dastina Johnson	Suzie Gilley	Virginia Witmer
Carol Zokaite	Ann Regn	Denny Casey
Marilyn Elder	Tim Taglauer	Barry Fox
Eric Rhoades	Bill Portlock	Ellen Powell
Paula Klonowski	Jennifer Underwood	Sonya Wolen
Anne Wright	Anne Mallek	Jill Bieri
Dee Deroche	Llyn Sharp	
Lane Guilliams	Jeff Kirwan	

Treasurer's Report

Ann presented a spreadsheet with income and expenses. DCR classroom grants, Virginia Naturally, and Smithfield foods all contributed to this year's income (DCR - \$50,000 for mini-grants, Virginia Naturally - \$15,000). Love a Tree expenses were \$14,061.30, and the Bay Academy expenses are covered by grants to VRUEC. The Treasurer's Report was accepted.

Year in Review: Updates/Reports

VaN Classroom Grants:

- 27 applications for the current round.
- \$237,000 given out over the years (Rounds 1-7)
- Clarification: Divisions outside the watershed can be funded if money is available since there are three funding sources. Some of the money can only support projects inside the Bay watershed. A map and handouts were provided identifying the schools receiving funding.
- Marketing to DOE Region 8 was discussed since there seems to be a gap for grants from this area. US mail was suggested.

Virginia Water Monitoring Council – contact Katie Register for more information

Virginia Naturally Update – (annual report is cream colored handout)

- 128 groups joined VaN last year.
- Contact Nancy if you are not getting electronic newsletter or if you want something in the newsletter.
- Website has been redesigned.
- VaN presented, exhibited at over 30 events.

- 107 educators attended EE Conference. Next conference is Sept. 19-20.
- Several regional EE groups are beginning to meet.

There was clarification of the role of VaN and VRUEC.

Eric suggested that it be a requirement for classroom grant awardees to register with Stewardship Virginia.

DEQ has applied to EPA for a grant to set up the regional EE groups. They don't know if the grant has been awarded yet.

Virginia Naturally Schools –

- 29 schools last year (six involved since 2000)
- Receive pennant each year
- Supported by DGIF and Smithfield Foods

Calendar of Summer Activities (white sheet)

Due by Feb. 15 to Jennifer Underwood for this summer's activities. Please also notify Nancy.

Chesapeake Bay Academies

- Coastal – 25 teachers last year, 12 for credit
- June 19-23, 2006 this summer
- Positive feedback from previous academies
- Eric suggested a follow-up survey to participants to see if they have implemented projects.
- Western – 23 teachers, good feedback from teachers, 4 days.
- Barry had questions regarding implementation plan for Bay Academy teachers to share information with their localities – present to school board, county planning board. Sharing of information should be considered as a priority.
- Project Underground and Healthy Water, Healthy People included in academies
- Graduate credit available through VCU Life Science Dept. (optional)
- Lane, Bill and Carol Z are coordinating.

Sixth Grade Science Institutes

- NOAA grant
- SW handout
- 4 dates this year

Agency Updates

Danville Science Center – yellow handout, working with institute for grants learning and research.

VMNH – VSSI will be held July 17-21 at Hungry Mother State Park. GLOBE will be at IALR on June 30. The Earth Science Institute is July 26-27. They've produced a new moth book and VMNH is involved in the Master Naturalist Program.

Chesapeake Bay Foundation is at capacity for this spring. They will offer eight five-day courses for teacher professional development. Expedition Chesapeake took 30 days last summer. This year they will travel the Susquehanna.

DCR – Stewardship Virginia is April 1 – May 31. You can register activities on the website. This is the 70th anniversary of Virginia's State Parks. They are producing John Smith maps that highlight his trail on the James River. It is a boat and auto tour with 40 stops.

VT Extension - The Virginia Master Naturalist Program is voting on a logo. This program will develop a statewide network of volunteers across the state similar to the Master Gardener program. To start a chapter you need a coordinator from a state agency. There will be a 3-day training on May 3-5 at Douthat State Park. Information is being communicated through agencies first and then statewide. Michelle Prysby (mprysby@vt.edu) is the new program coordinator.

Natural Resources Conservation Service (handout) provided a grant to Henricopolis SWCD for a soil tunnel.

Virginia Association of Soil and Water Conservation Districts (handout) – The state envirothon competition is May 14-15. The March training session will focus on global warming.

Virginia Tech Science, Technology, and Math Coalition – STEM.vt.edu, new organization

Virginia Coastal Zone Management –

- New logo
- Oyster gardening guide revised
- Currently undergoing needs assessment and developing strategies
- Focus on living shorelines
- Planning summit on living shorelines for late summer/fall
- Contractor training
- New kayak/canoe trail and brochure for Eastern Shore and seaside of Virginia

4-H

- Envirothon and wildlife education program
- Water wizard van (handout)
- What Do You Know About Water Quality (handout)
 - Powerpoint presentation
 - Looking for folks to pilot program
- Master gardeners and watershed

- Marine camp is revised
- Planning guide for field study is revised
- Citizen/soldier operation: 50 15-lb. boxes shipped

Clean Virginia Waterways – Katie Register

- 12th annual International Coastal Cleanup Sept. and Oct. 9/16/07
- Rain barrel workshops

Longwood University Foundation

- Hull Springs Farm – 637 acres in Westmoreland Co.
- Multi-use facility, forest management, living shoreline, wetlands restoration
- Sleeps 36 people

Virginia Department of Education

- PAEMST- K-6 teachers
- GIS statewide site license for all middle and high schools in Virginia with training (8 regional academies this summer)
- Learn and Serve Virginia program will have environmental focus for the next three years. \$358,270 to support service-learning.
- MWEE tracking survey
- BWET grant

Virginia Commonwealth University

- 7 teacher workshops this summer: Forensics; Woods, Water and Wildlife; Botany, vertebrates, entomology
- The Rice Center has a pier on the James River
- Virginia Naturalist Society has started up in the Richmond area. Meetings are the third Tuesday of the month at the Science Museum of Virginia.

Department of Historic Resources

- Partnership with VMNH to develop website on three cultures (Pueblo, Eastern Woodland, ...)
- Republishing First People book
- Environment Virginia @ VMI 4-18-4/20 for businesses, NGO's, agencies. High school pilot program is new this year.
- Biodiversity, Chesapeake Bay, air quality, green architecture
- Environmentva.org
- Virginia Archeology month

Department of Conservation and Recreation

- Cave owners newsletter (handout)
- Karst education 3/1 and 3/2 facilitator training
- May – bat education
- New Project Underground book by early summer – two activities on microbiology, topo and hydro lessons
- Pre-service training with WET, WILD, PLT and Underground

Department of Forestry

- New conservation education coordinator
- State Forest education
- Holiday Lake Forestry Camp June 19-23 with teacher component
- Master Naturalist program partner
- New Rain Garden publication
- VMI Environment Virginia – high school students focusing on environmental issues (Wed 4/19) – need facilitators for session. See Ellen if interested in being a facilitator.

Shenandoah National Park (handout)

- Debut of new web-based curriculum “Good Character, Good Stewards.”
- Flyers available
- Park Service grant to add two more Earth Science lessons on source water, GIS (hydrology and geologic history of Shenandoah National Park)

NOAA Chesapeake Bay Office

- Money handout – 2.5 million dollars for FY 05
- About half of this year’s BWET proposals were for exemplary projects (professional development and MWEE)

Department of Environmental Quality

- SHENAIR professional development June 26-30 at JMU

Department of Game and Inland Fisheries

- Birding and wildlife trail guides
- Animal Tracks in Virginia Wildlife magazine
- **Wild about Math** book

New Business

VRUEC Budget Request: Requested funds did not make the Governor’s budget. Chesapeake Bay 2005 Status Report (handout). State government budget priorities were complementary to Bay education priority areas.

1. Enhancement of 50 outdoor classrooms in priority areas (grant funding available). VRUEC support letter for Virginia Outdoors Plan – adding environmental education to this. Increase in access to current sites as well.
2. Ensuring that environmental education has an “in” in science methods classes, strengthening programs.
3. Provide additional opportunities for formal and informal groups to participate in long term EE planning
4. Expanding educational training programs “Conservation Education.”

MWEE mini-grant program (see handout)

- Support efforts by community groups to provide student groups with MWEEs. Helping to build capacity.
- Discussion about targeting school population
- Who can apply for money
- Similar to classroom grant application
- Money being granted - \$1-3K per grant (\$30,000 NOAA grant program)
- Should there be an articulated match
- Discussion regarding wording of RFP
- Committee to review grants: Paula, Eric, Barry, Llyn, Ann, Dana

Love a Tree – Possible topic for fall (DCR & DHR) connect historical and current use of natural resources and trends (oysters, chestnuts, tobacco, etc.)

VRUEC next meeting dates – May 22, 23, or 24

Environmental Educator of the Year Award will be presented to Joyce Buchanan to recognize her lifetime achievement in September. Barry made a motion that Joyce's nomination be approved, Llyn seconded and the motion carried.

Spring Professional Development MWEE Workshop for non-formal providers

- 2 days in a natural setting
- Hands-on in the field
- Email target audience
- Email Suzie if interested

Helping to plan EE Committee: Eric, Paula, Carol Z., Barry. Committee will report on what is wanted at sessions.

VAST Conference

- VRUEC funding – specific job for \$\$\$. Any suggestions?
- Address SOL needs of teachers
- Keynote ideas?
- Something tangible to take into classroom
- Is there a watershed trunk?

Other Business:

The following new members were voted in:

Katie Register
Jill Bieri
Dee Deroche
Ann Mallek

Respectfully submitted by Lisa Deaton & Paula Klonowski

**VRUEC Winter Meeting
January 30, 2006
Longwood University**

Suzie Gilley called the meeting to order at 10:25 a.m. Suzie thanked Katie Register for hosting the meeting and introductions were made. A motion was made to accept the minutes from our May 2005 meeting with one correction to the list of attendees.
